PASRR Comprehensive Service Plan (PCSP)

An Introduction to the Form

Session Objectives

At the conclusion of this session participants will be able to explain:

- What the PCSP is.
- Why HHSC is introducing the form.
- Training on the new form.

TEXAS
Health and Human
Services

What is the PCSP?

The PASRR Comprehensive Service Plan combines the Nursing Facility's (NF) Interdisciplinary Team (IDT) form and the Local Intellectual and Developmental Disabilities Authorities (LIDDA) PASRR Specialized Services (PSS) form.

Effective January 26, 2019, the use of the current IDT and PSS forms will be discontinued.

Health and Human
Services

What is the PCSP

In reviewing the draft of the PCSP, you will observe numerous similarities to the existing IDT and PSS forms.

There are important differences and new features that we will point out later in this presentation. But first, let's explore the reasons why HHSC has elected to adopt this new form/process.

TEXAS
Health and Human
Services

Why The Change?

- The IDT and PSS forms supported different functions by different provider types. It proved difficult to track the recommendation, provision and discontinuation of specialized services
- Tracking all actions related to PASRR Specialized Services will be simplified as all PASRR service meetings will be submitted to the LTC portal using the same form

TEXAS
Health and Human
Services

Why the Change?

- The LTC Online Portal (LTCOP) allows NFs and LAs to submit and view one form that captures an integrated service plan for a year. This creates a comprehensive view of the individual's needs.

TEXAS
Health and Human
Services

Key Features

- Drop Down Menus to indicate the status of each service
- A required review of all services indicated on the PE at the initial meeting
- A new summary tab in the LTC Portal that supports at-a-glance review of all actions taken during the year with regard to specialized services

TEXAS
Health and Human
Services

Key Features

- One combined meeting for the initial IDT and SPT. The IDT will be annually thereafter
- Any Update or Quarterly SPT Meetings will be recorded on the same form
- The ability for Update meetings to be submitted by LMHAs/LBHAs
- The PCSP form must be submitted for the LTCMI to process

TEXAS
Health and Human
Services

Training for the PCSP

- All NFs and LAs who will complete or enter the PCSP must receive training from HHSC.
- Training sessions are being organized across the state to provide opportunities for staff to receive training.
